

OUR EXPERTISE

At Venteon, we are experts in providing recruiting services in Information Technology & Web Professionals with the following options:

Direct Placement
Contract
Contract-to-Hire

> WE DELIVER THE RIGHT SOLUTION

Our recruiters are experts in finding the right candidates for your position. Through active recruiting within our vast network (both locally and nationally), we source qualified candidates that have the exact experience necessary to make an immediate impact.

Our goal is to make the right placement the first time. We spend a great deal of time matching the right candidate with the right opportunity. Once a placement is made, we implement an ongoing quality control program to ensure the satisfaction of both parties. We believe that being proactive in this process enables us to provide a high level of success in our placement process.

> WE BUILD LONG-TERM PARTNERSHIPS

Our professional staff will learn about your business, culture and work environment in order to understand the requirements and skills needed for your open position. We then tailor our search to these specific requirements and efficiently address your critical hiring needs. Our dedication to nurturing long-term, trust-based relationships with both clients and candidates is the reason for our success.

INFORMATION TECHNOLOGY Direct, Contract & Contract-to-Hire

We strive to provide superior caliber Information Technology professionals, ranging from a wide variety of consulting engagements from Special Projects to roles for key vacant positions within your organization. Our network of professionals typically has extensive experience that allows them to achieve impressive results that meet or exceed the business objectives and goals required and expected by our clients. At Venteon Partners, we make it our number one priority to provide excellent services to our clients, each and every time. When you have Venteon Partners on your side, you're not just a client to us; you took the first step in establishing a long-lasting mutually benefiting relationship with us. We look forward to working with you!
